

# TOUR

**SW-MOTECH**

**BAGS-CONNECTION**

engineering for motorbikes

*The Tour is a spacious multi purpose bag that can be used as a rear tail bag or as a magnetic tank bag.*

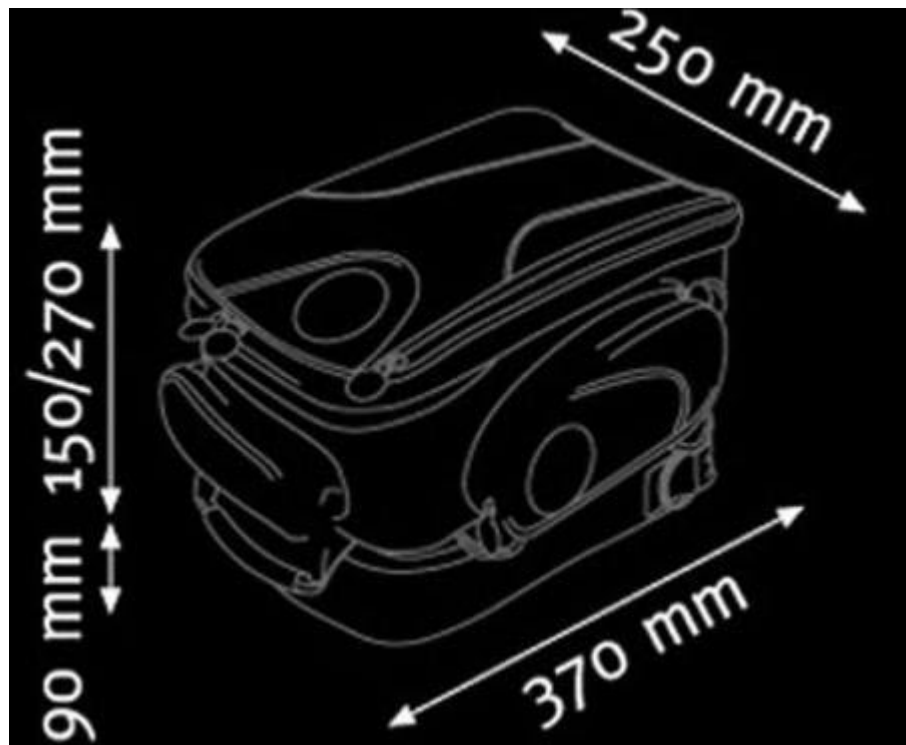

*Functionality is further enhanced with the ability to increase or decrease the capacity as required via a unique 3 piece system. Need only a map/GPS holder? No problem. Simply zip off the top two compartments. Need more space? Simply add one or both of the remaining compartments.*

*Each compartment can be independently fitted to the base and each compartment has its own map holder/GPS pocket to cater for just about any requirement you may have.*

*An expansion zipper on the top compartment increases the packing capacity to a cavernous 40L*

### Features

- *Produced from high-tenacity ballistic nylon yarn (an industry leading 1200 denier) which surpasses leather, Cordura and nylon in strength. Ballistic nylon is approved by the U.S. Military for use in bulletproof vests. And if Ballistic is tough enough for the military, it's tough for adventure bike touring. In abrasion tests conducted against nylon and leather, Ballistic scored highest. Leather scuffed at 25 cycles, nylon failed at 295 cycles, while Ballistic was only affected after 3000 cycles. In tests conducted to measure tear resistance, nylon started tearing at 5 lbs., Cordura tore at 74lbs, but Ballistic held strong at 250 lbs!*
- *Internally lined with a water-resistant PE polymer*
- *Large map windows*
- *Detachable compartments to suit varying pack requirements*  
*One of the side bags is also detachable and can be used as a hip-pack/moon bag*
- *Reflective piping on top and sides*
- *Spectacle case*
- *Rain cover hides out of sight when not in use*  
*Includes 4 straps for rear-seat attachment and a detachable shoulder strap for use as a tote bag when removed from the bike*
- *Integrated carry handle*
- *Exclusive luxury internal lining*
- *Expandable up to 40 liters*  
*Provides great flexibility in use as either a rear bag or a tank bag*

**BAGS-CONNECTION**

engineering for motorbikes

*Detachable compartments allow for various pack permutations.*

*Each compartment has its own map holder (also suitable for GPS units)*

*Magnetic base can fold neatly under the Tour if not required  
(shown here in non folded position)*
